Description: Re-Roof 18 squares. AMC has a long-term lease with City of Healdsburg for the 1381 University Ave facility, approximately 19,500 square feet on 2 floors. The building was built 2002/3 and occupied in November 2003. There is a 2nd floor flat roof/deck that partially covers clinic space on the first floor, and partially covers a small courtyard. This flat roof/deck's roofing/decking material has not made it to the 20 year mark - apparently the weatherproofing was not done adequately for the winter rains. We noticed in March/April that the roofing/walking closest to the drainage was getting soft. We found a licensed contractor (Cliff Dufresne) in May who took off the old roofing/decking material in June and found rot. Cliff engaged a specialist who designed a new roofing/decking system. They will take up the interior wall up about 18" to ensure no further rot, and then replace with a new system. The repair is expected to take 5-6 weeks. The specialist is drafting the plan now.
